## STANDARD FILTER HOUSINGS

**Ideal for a wide range of applications, including residential, commercial and industrial**

**Available in 10" and 20" sizes to meet your needs**

**Optional pressure-relief/bleed button on inlet side of cap**

**Thick walls for increased strength**

**Leak-proof sealing with top-seated Buna-N O-ring**

**Available with clear and opaque sumps**

Standard filter housings are manufactured of a durable polypropylene or clear Styrene-Acrylonitrile (SAN). All are equipped with 3/4" FPT inlet and outlet ports.

Reinforced polypropylene housings have excellent chemical resistance and are ideal for many residential, commercial and industrial applications. Clear sumps are manufactured from a clear, FDA-approved Styrene-Acrylonitrile (SAN). They offer on-site examination of flow and have excellent chemical compatibility as well.

Standard filter housings are available in both 10" and 20" lengths and will accommodate a wide range of 2-1/2" and 2-3/4" diameter cartridges.
